Preparing for the test

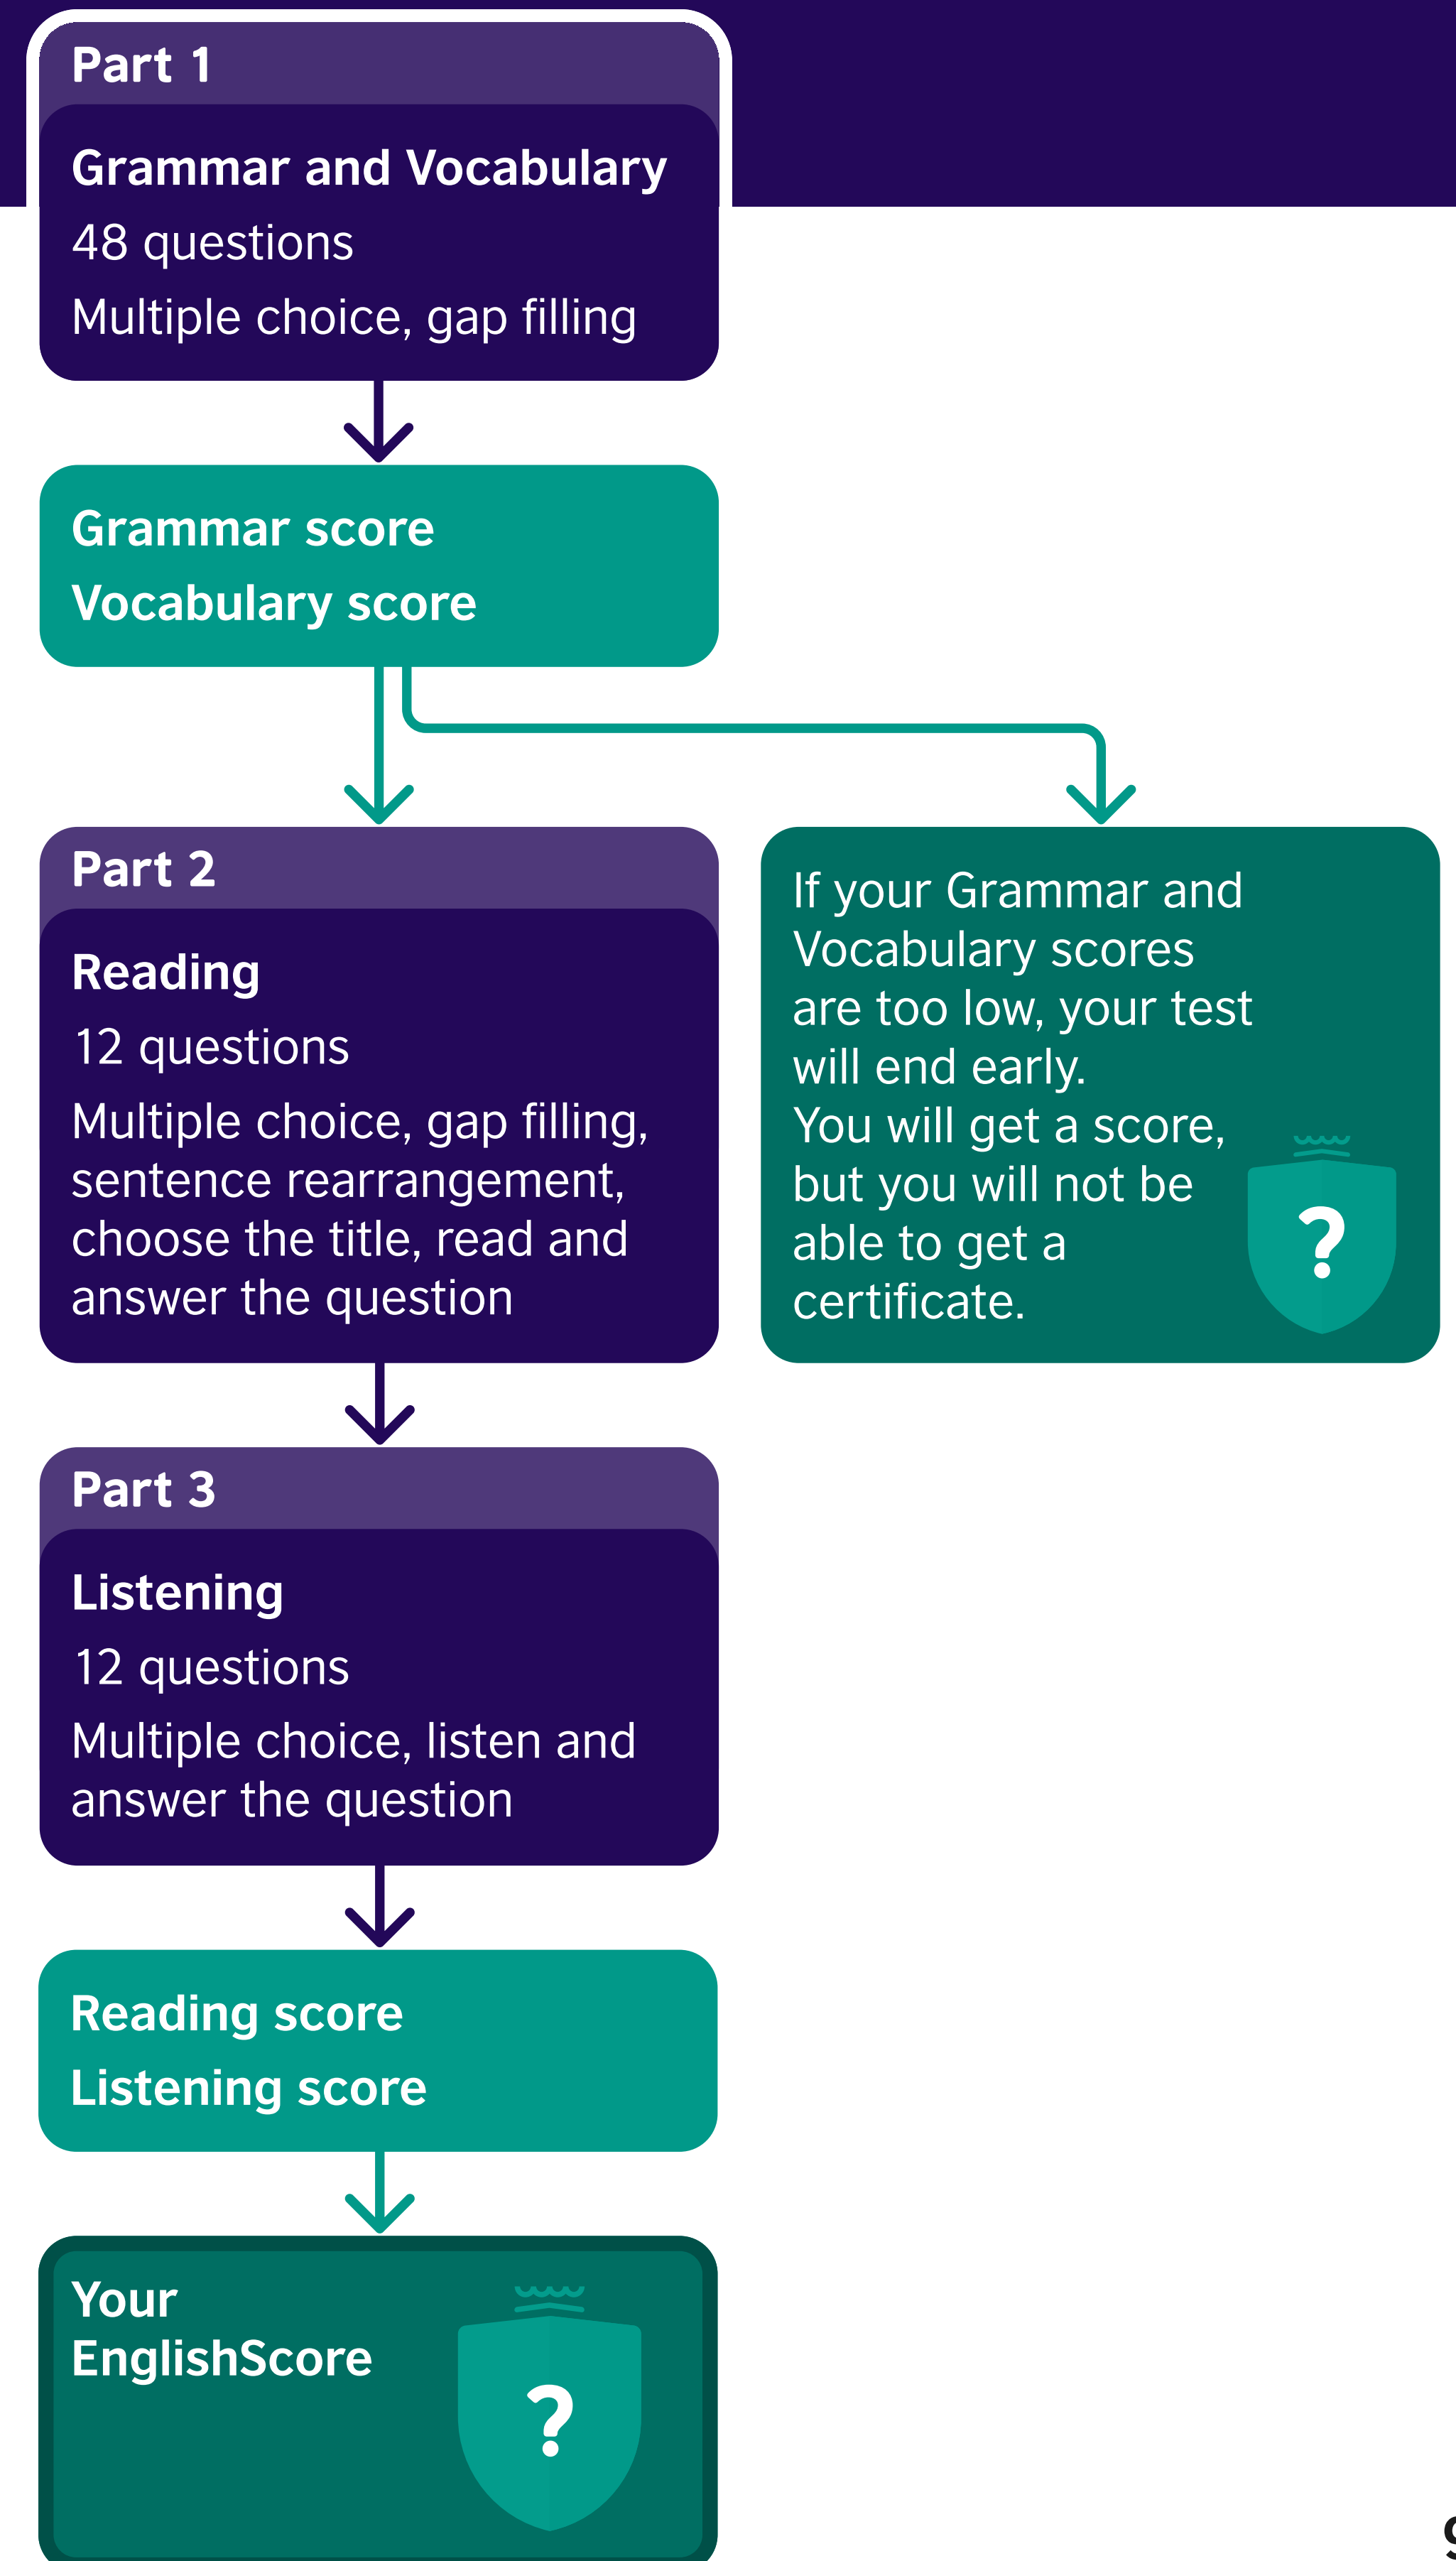

How the test works

EnglishScore tests your knowledge of English grammar and vocabulary, as well as your reading and listening skills.

The test mainly uses multiple-choice questions with three possible answers. Questions are on topics that can be from daily life, like going to the supermarket, or from the workplace, such as conversations you may have in the office.

If you answer enough questions correctly in the Grammar and Vocabulary parts, you will see the Listening and Reading parts of the assessment.

At the end of the test, you will receive your EnglishScore result.

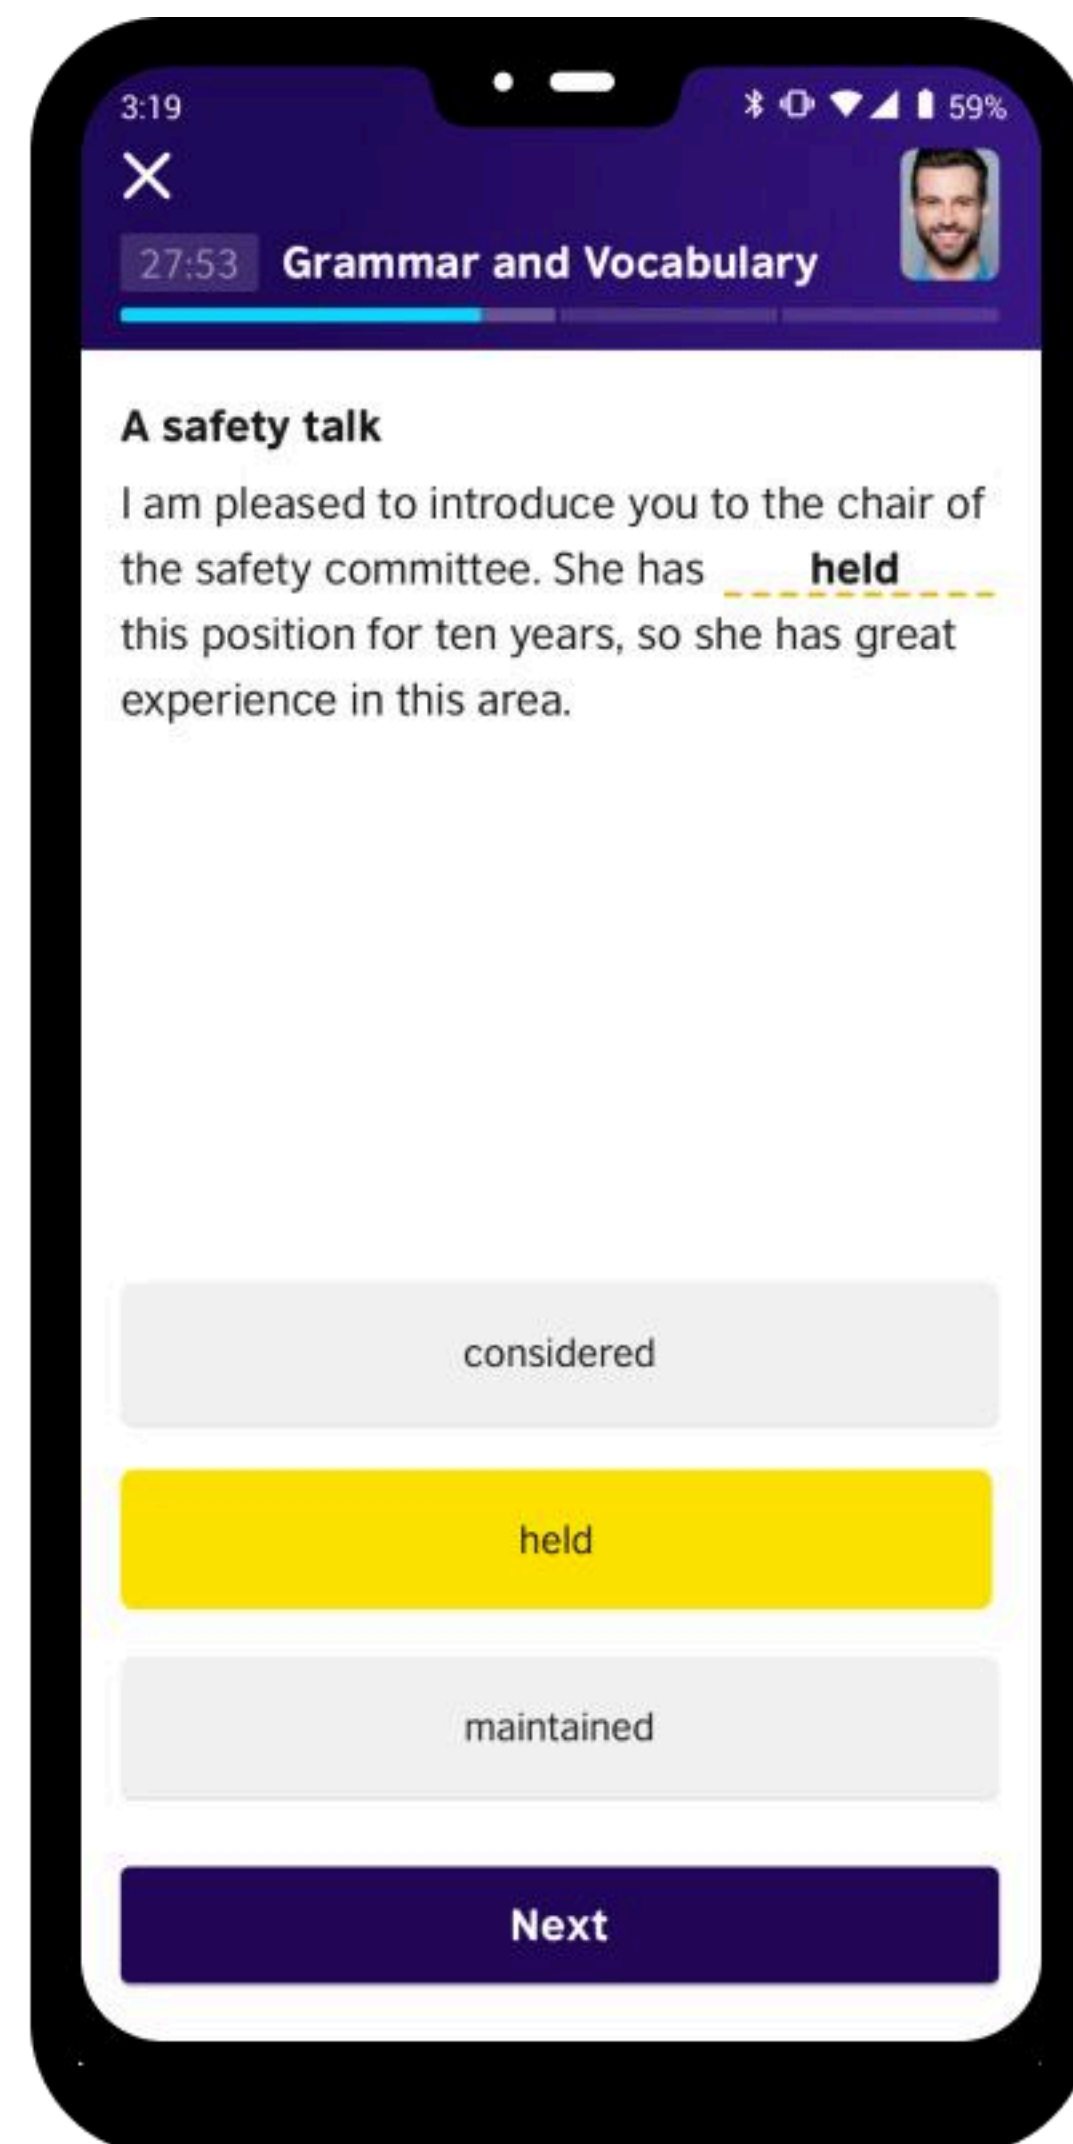

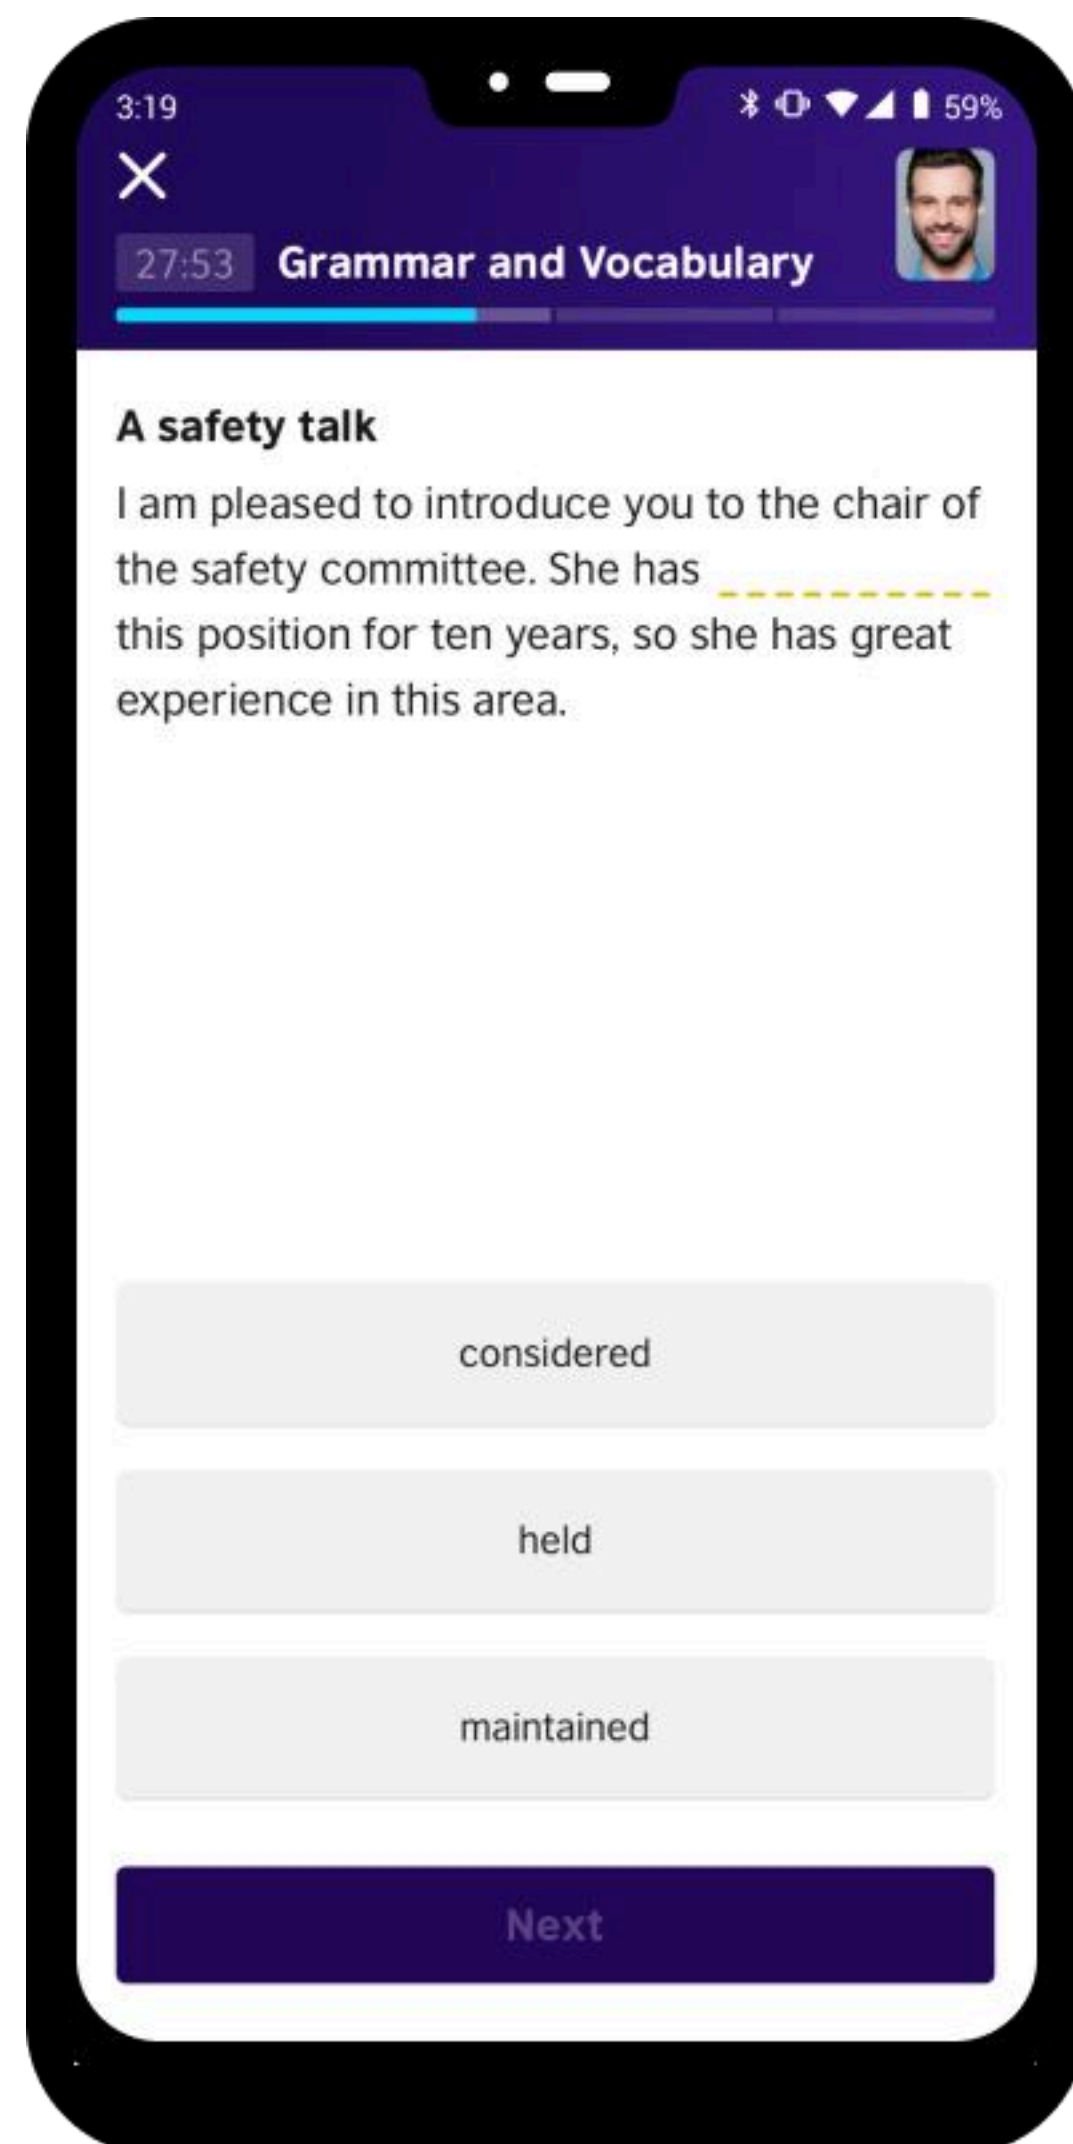

Part 1 Grammar and Vocabulary questions

In the Grammar and Vocabulary part of the test, you will see two question types.

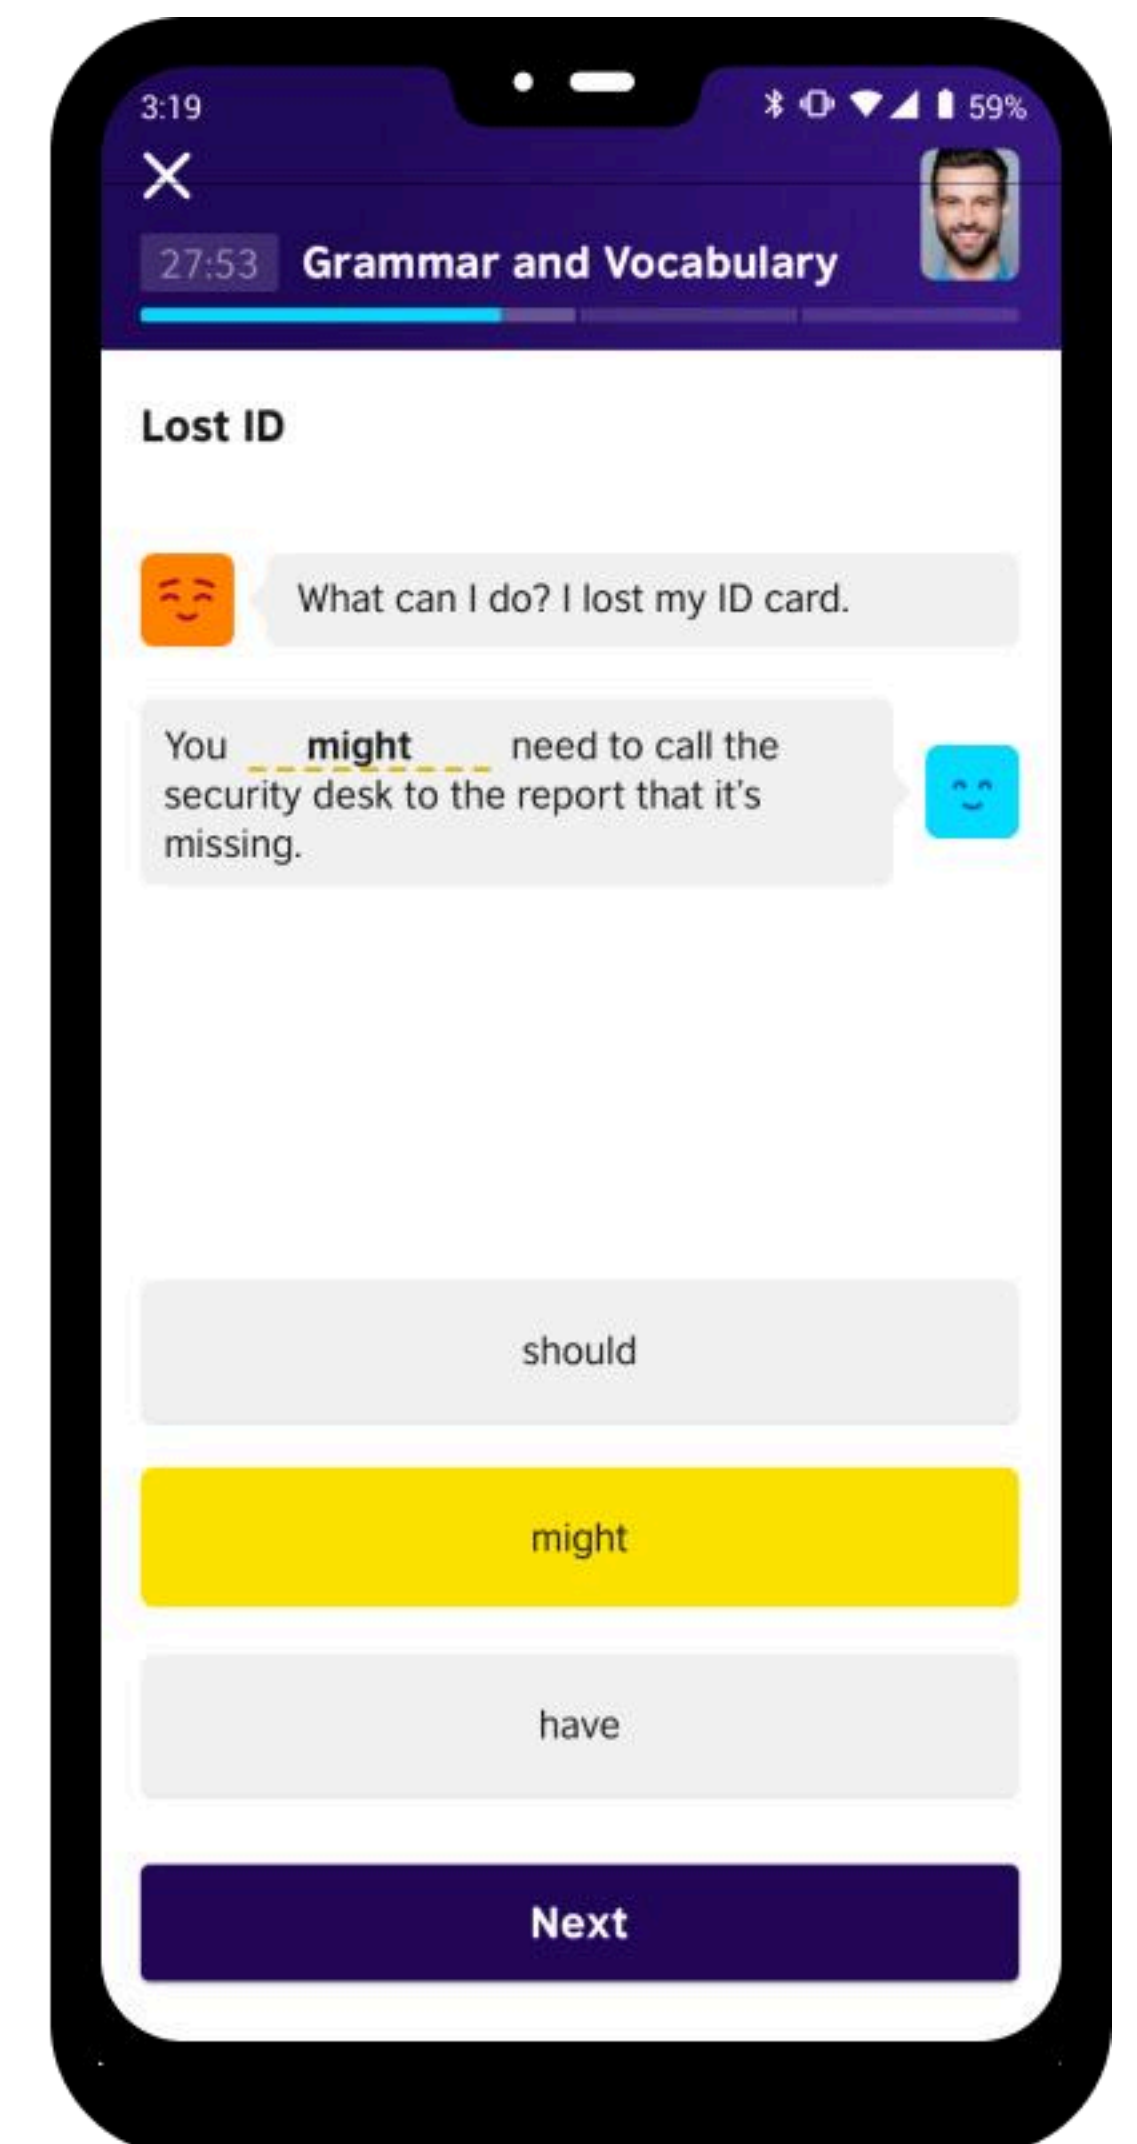

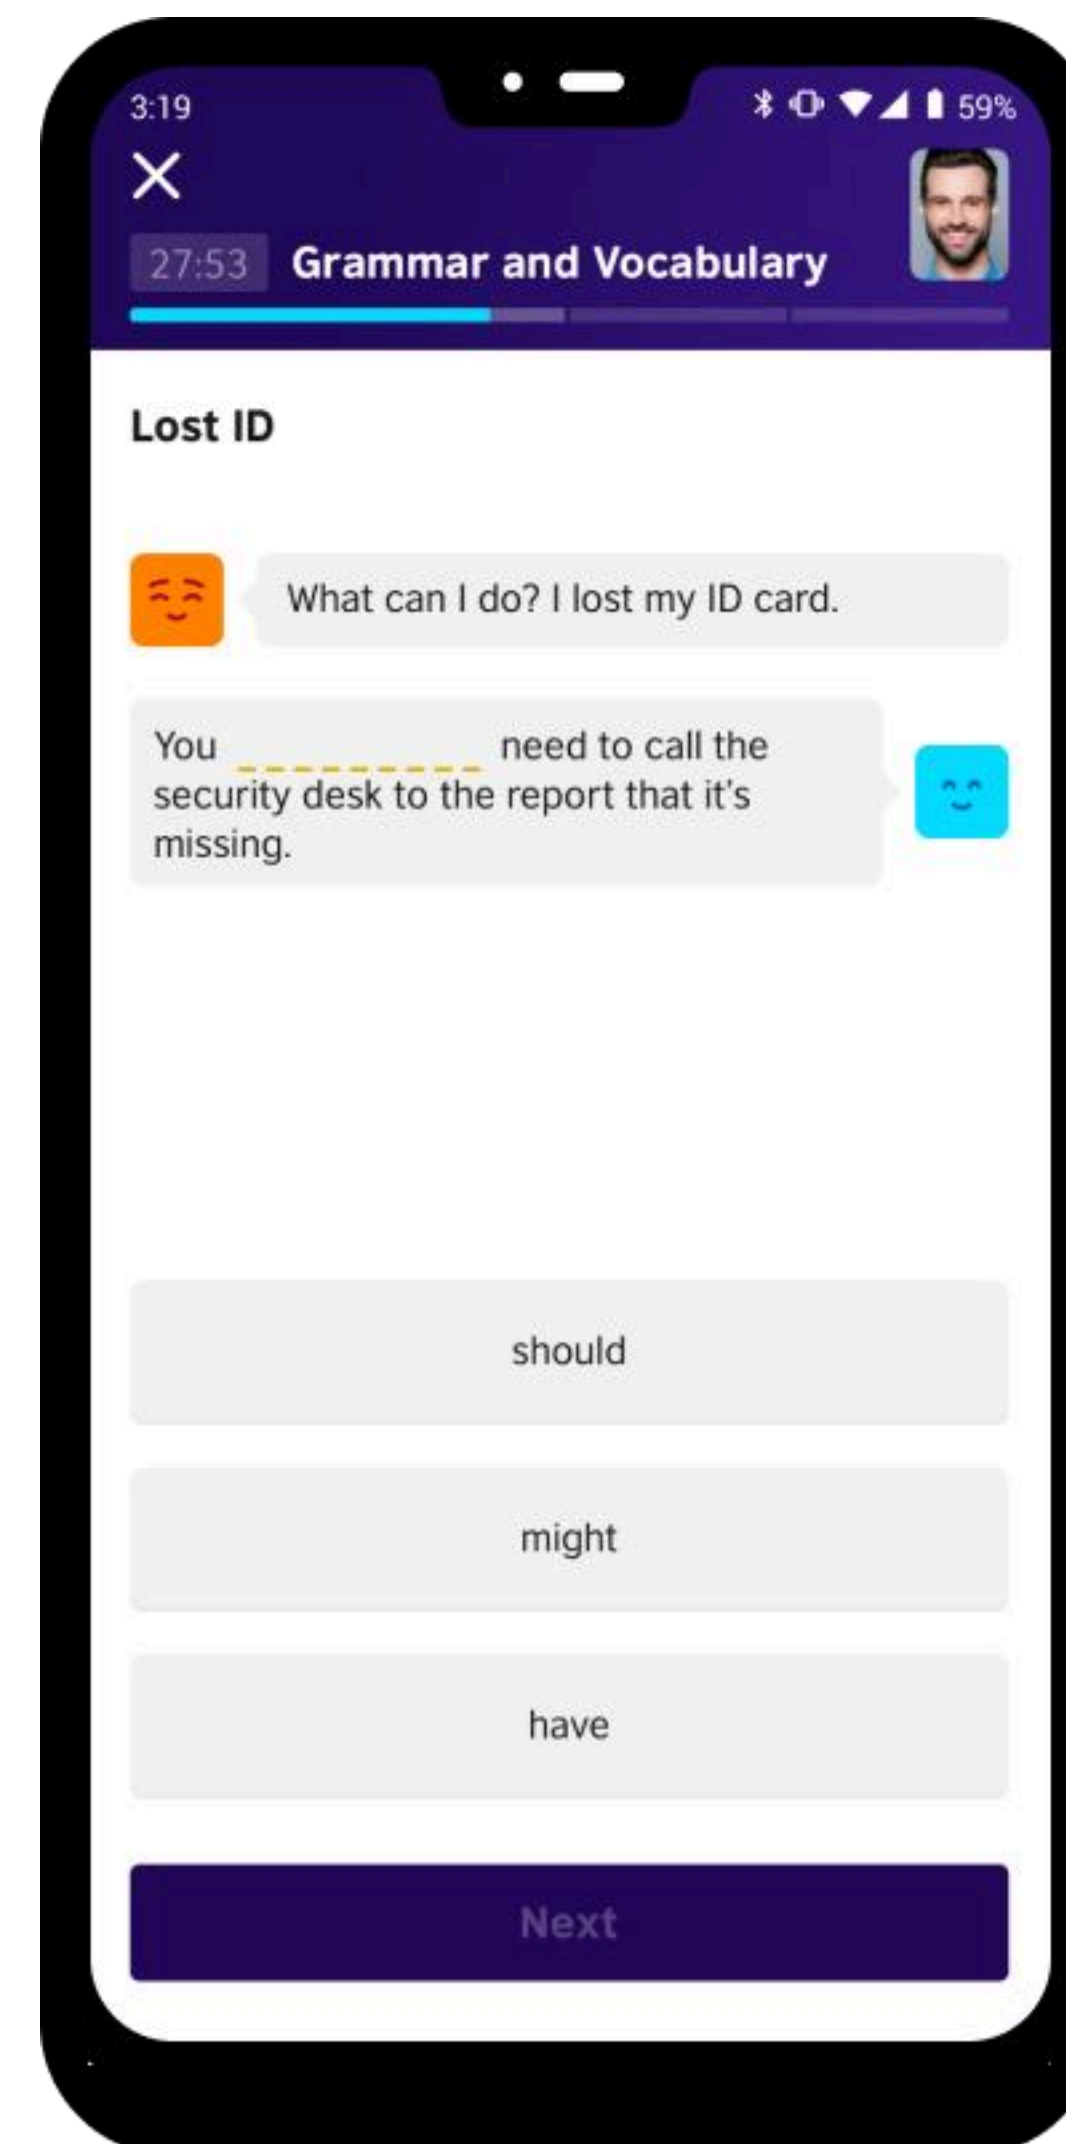

1 Complete the text

Choose the correct word to fill the gap.
Select the correct answer from the three options.

2 Complete the conversation

Choose the correct word to fill the gap in the conversation.
Select the correct answer from the three options.

Part 2 Reading questions

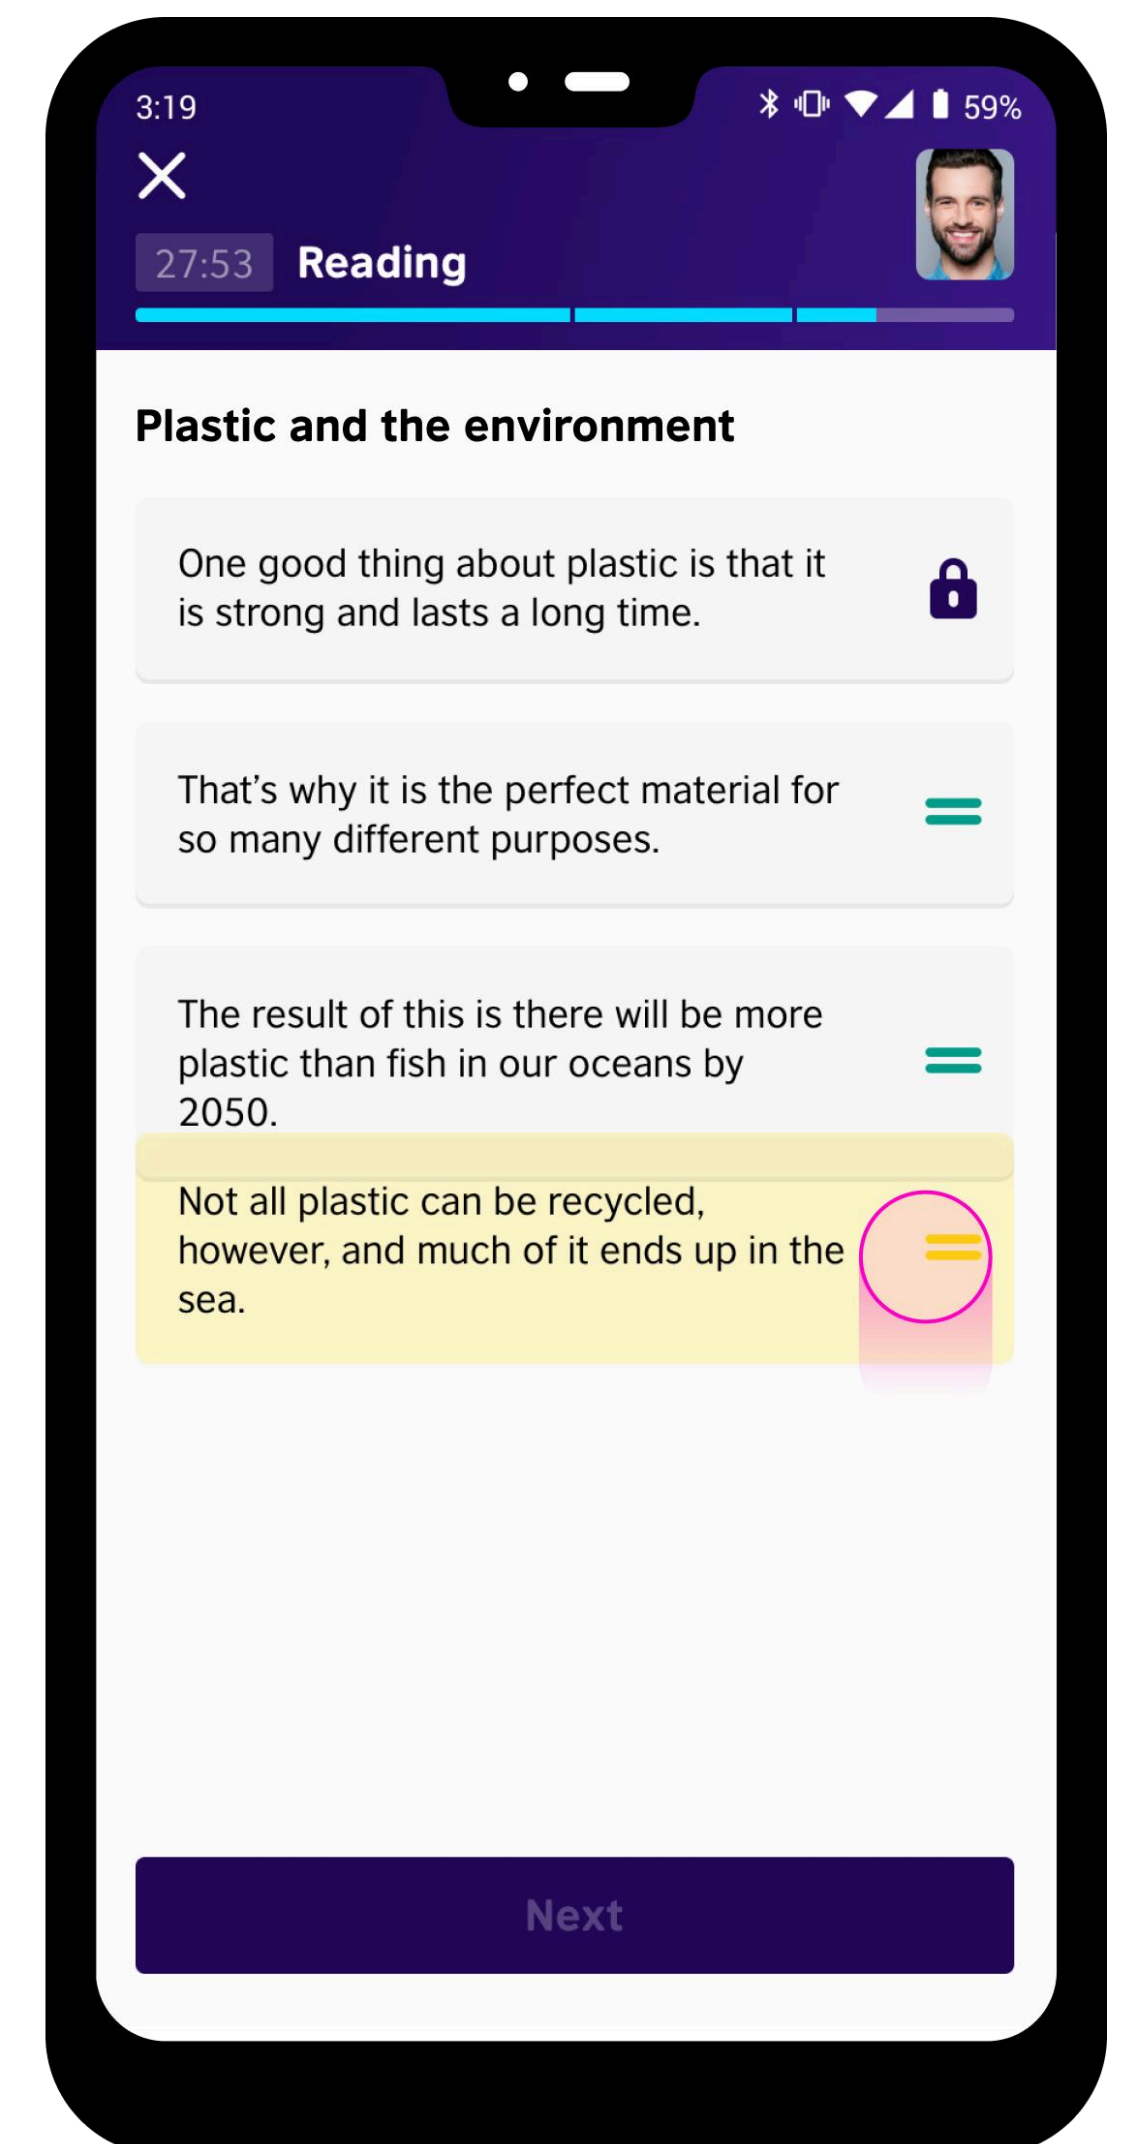

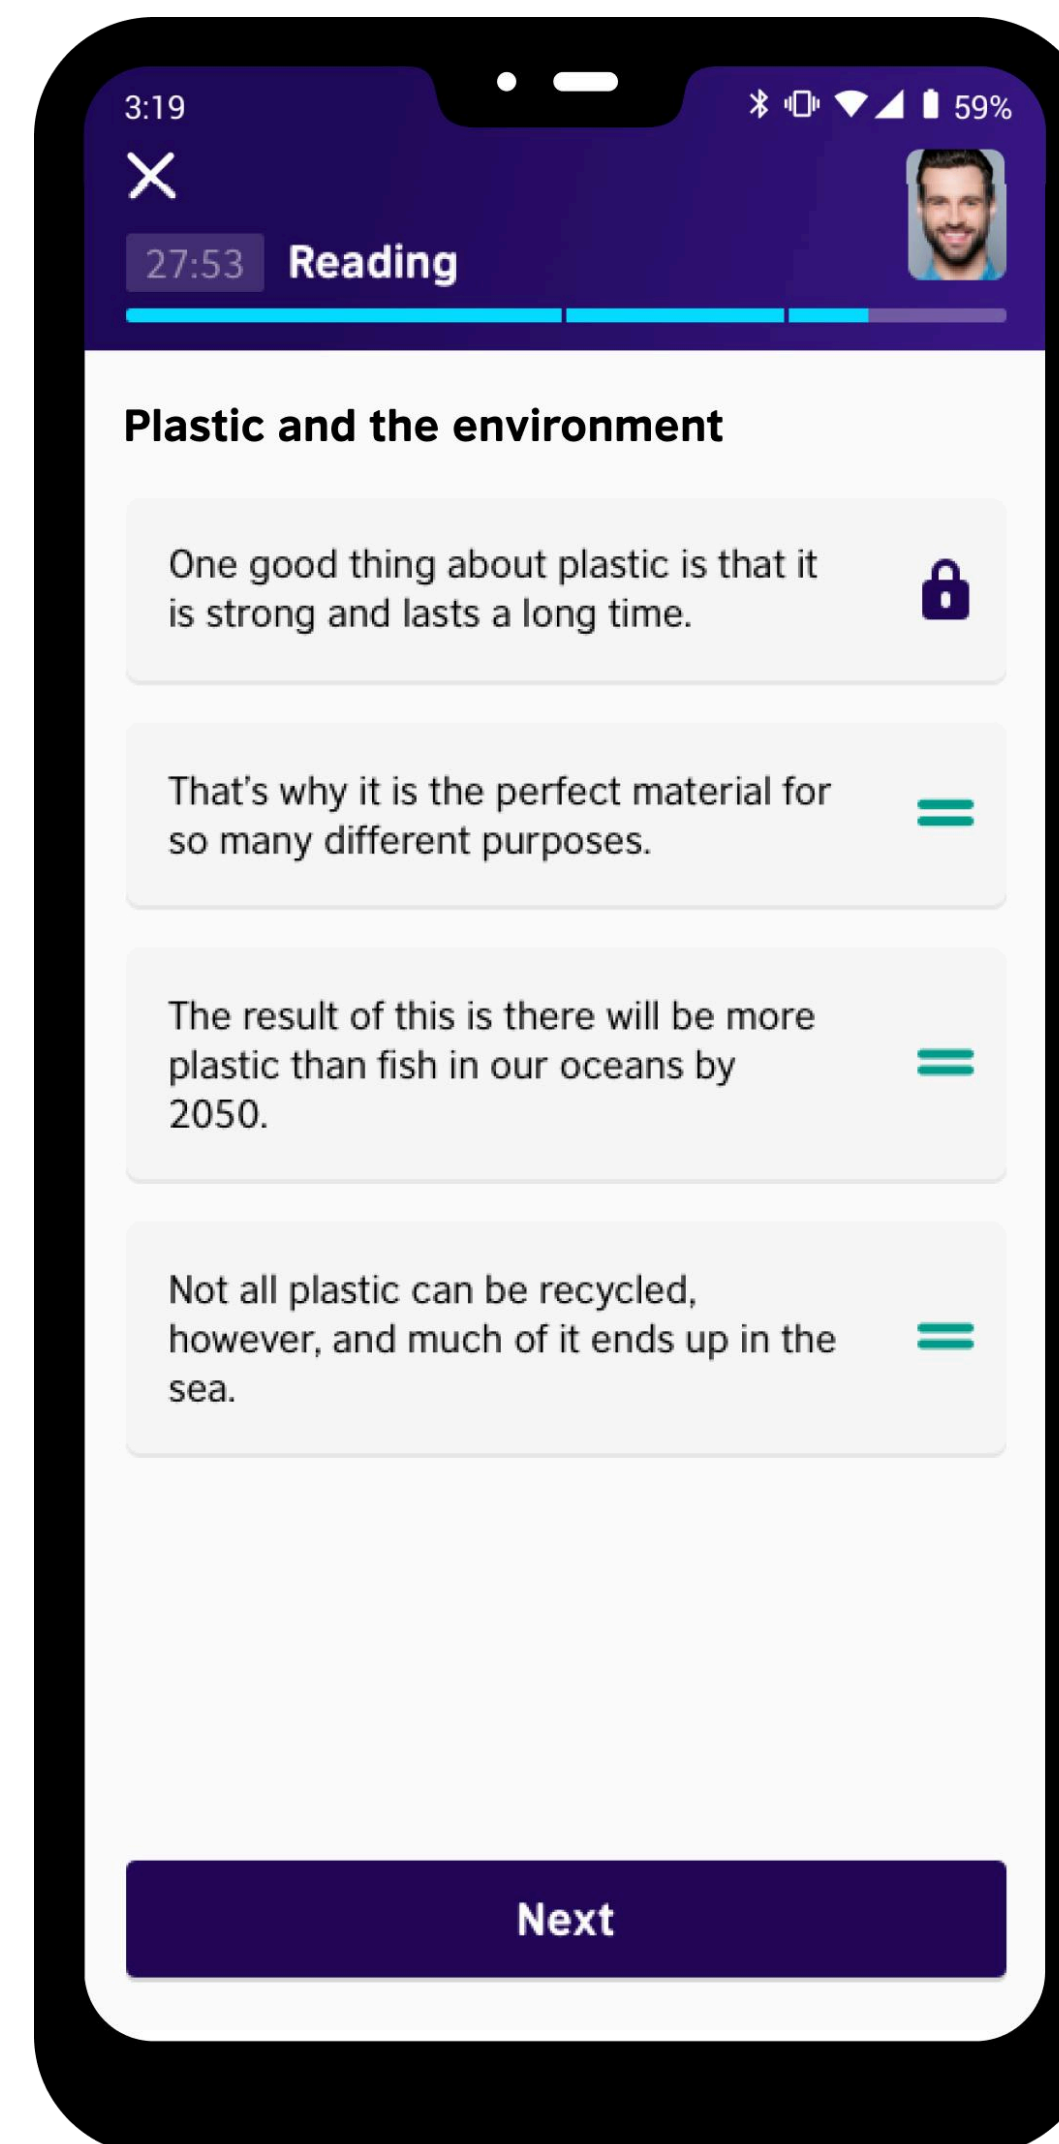

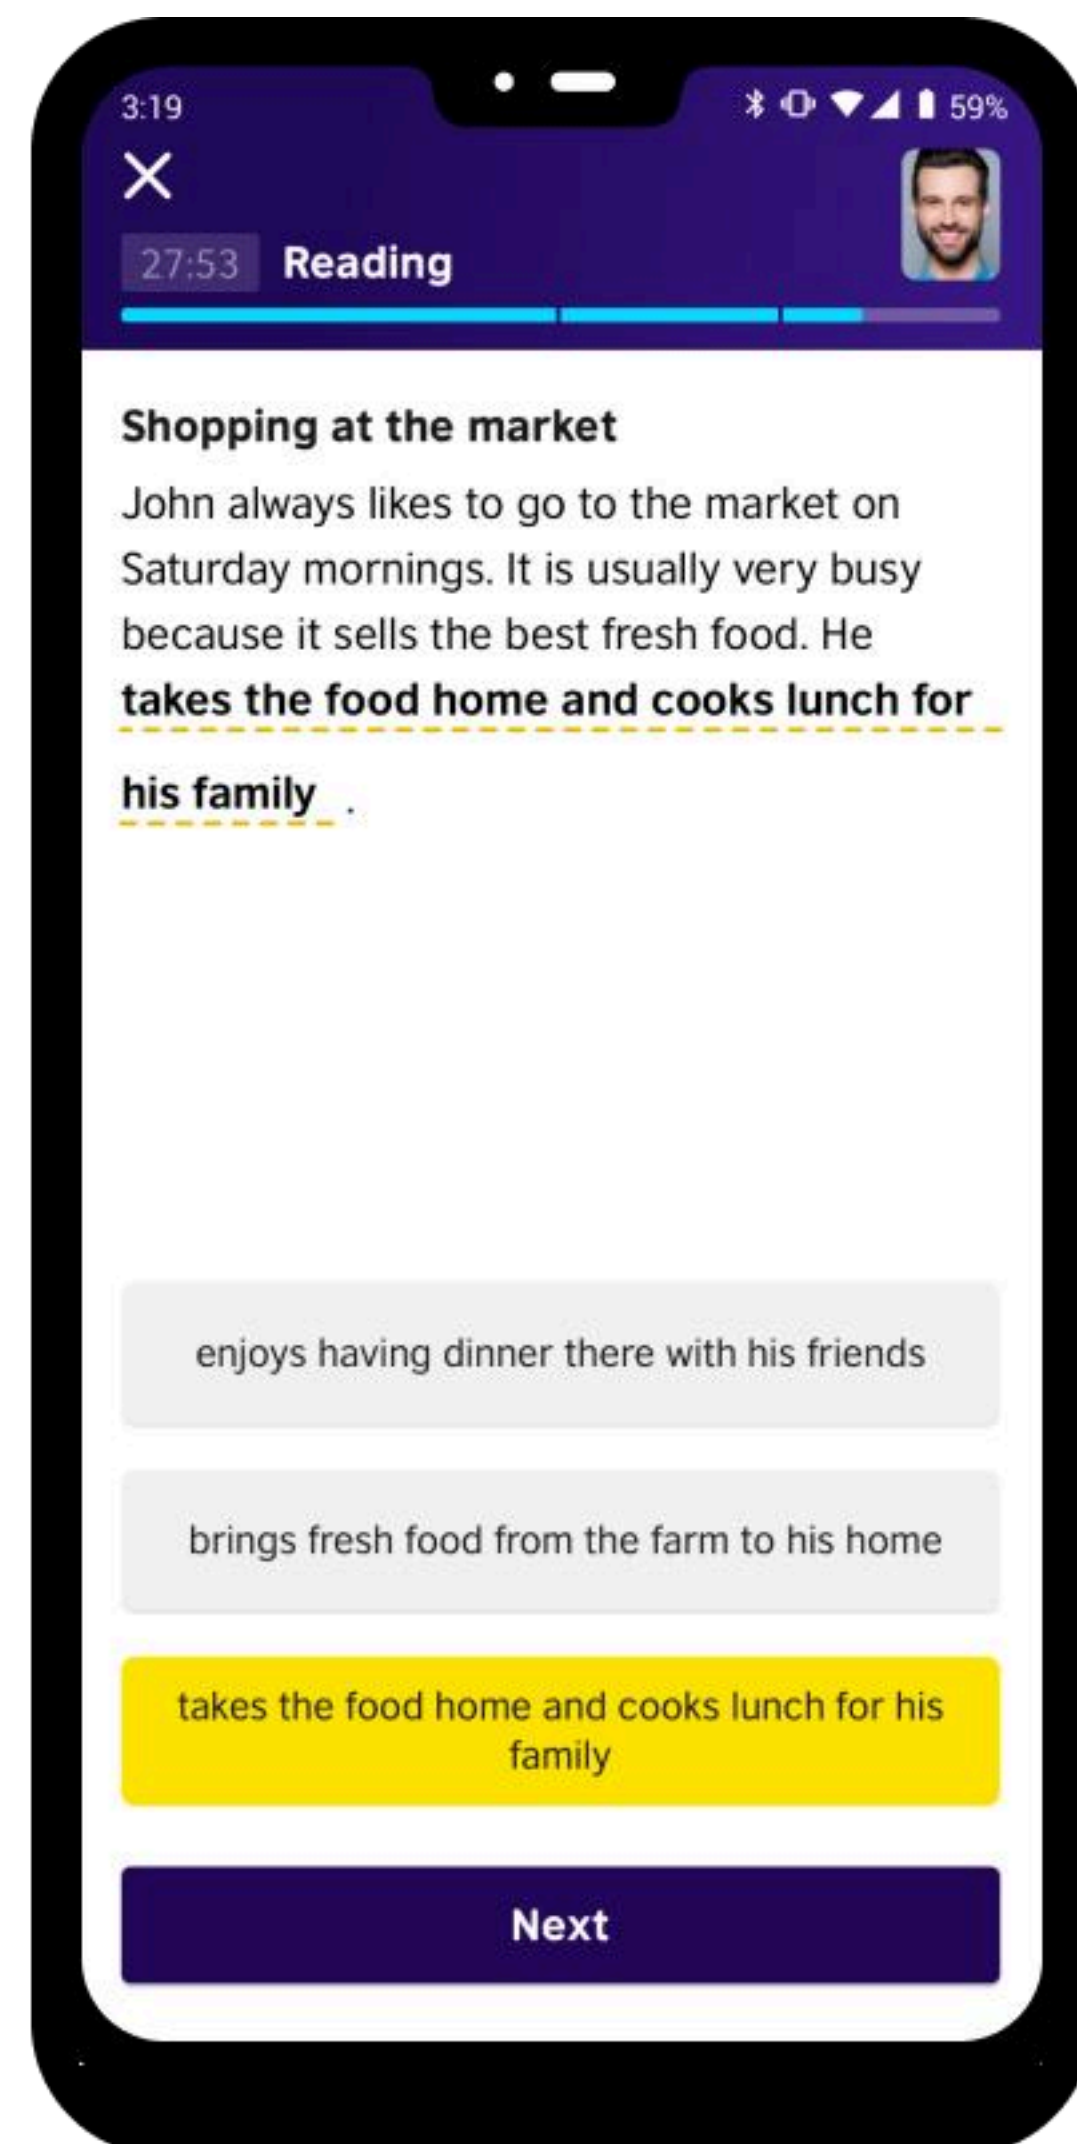

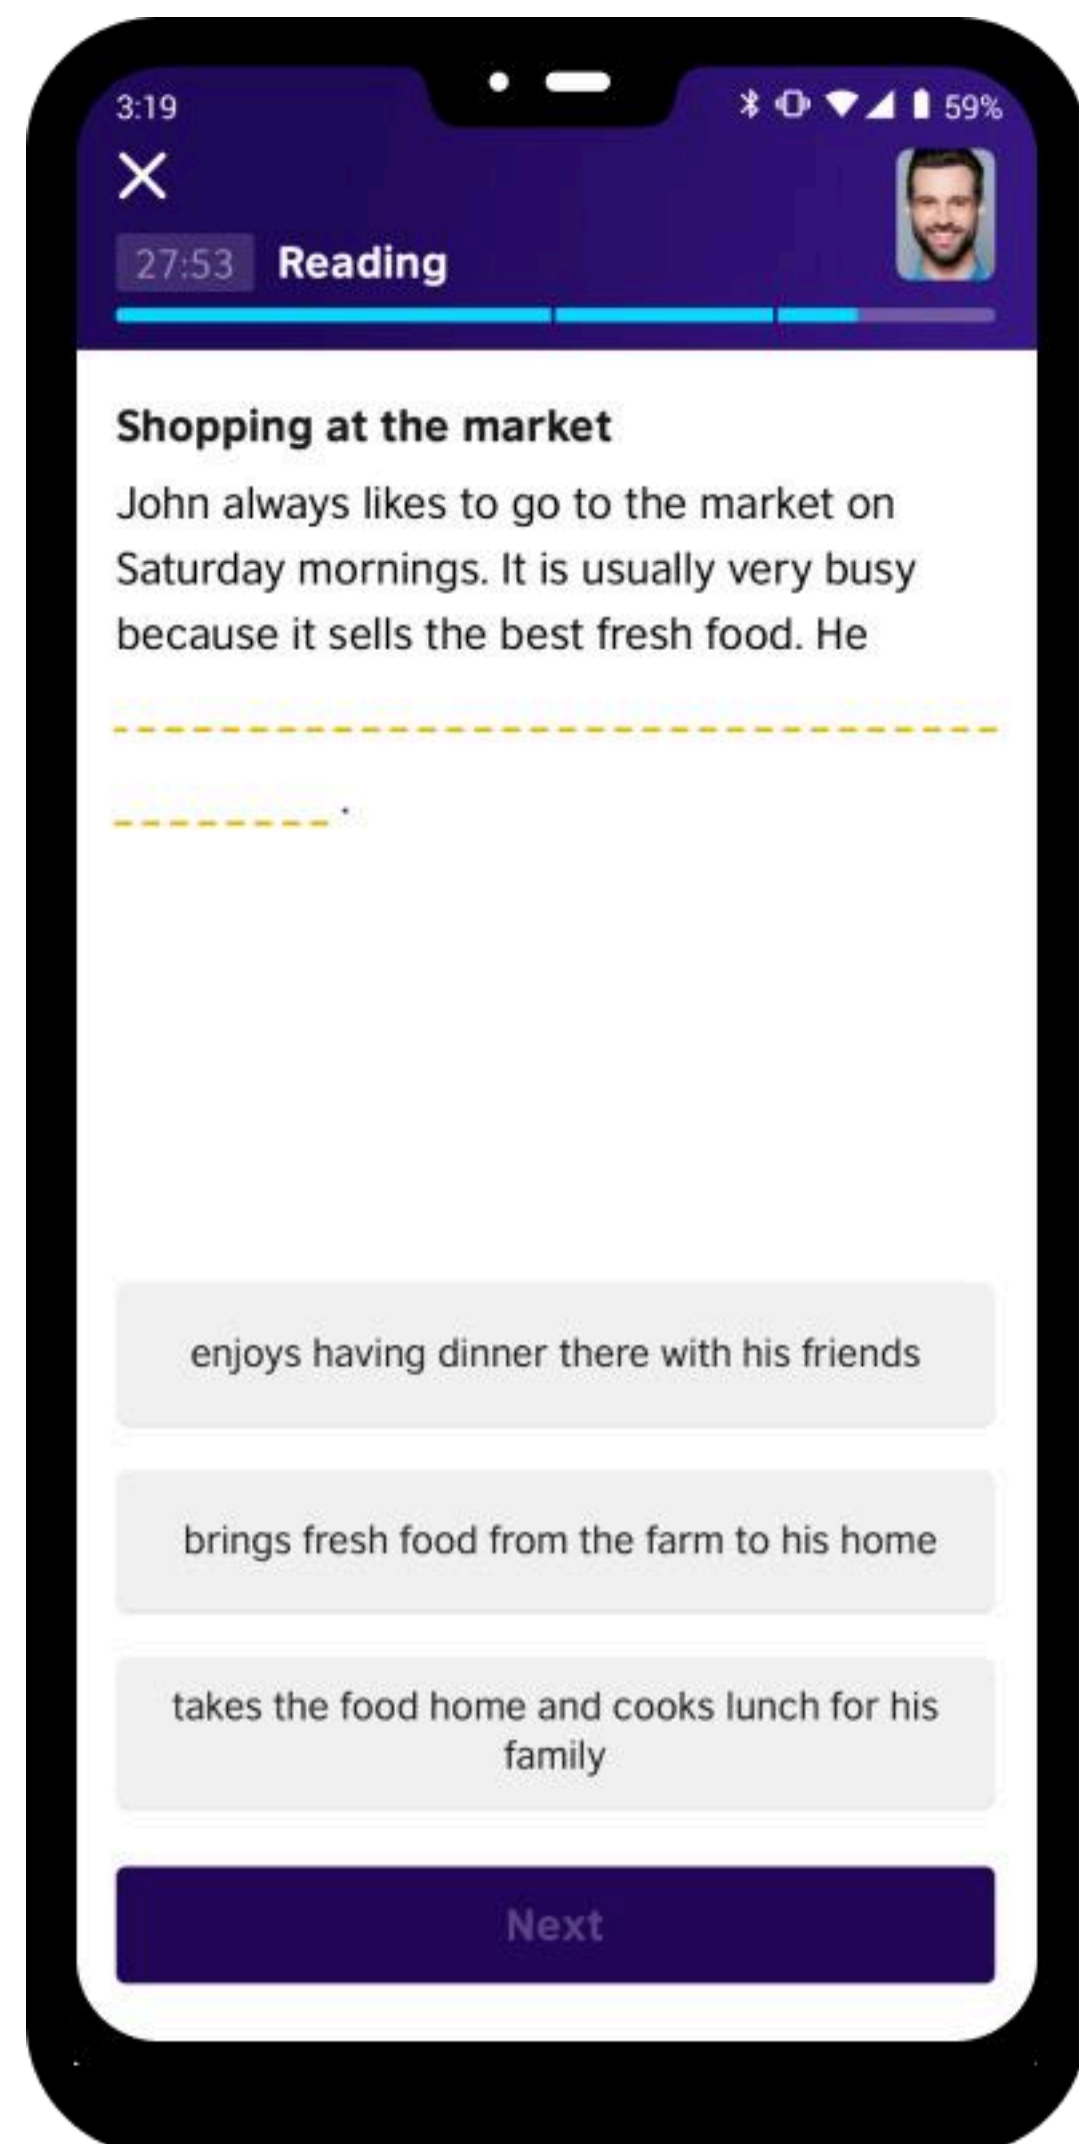

In the Reading part of the test, there are four possible types of question. You will only see two of these types depending on your level, types 1 and 2 at lower levels, 2 and 3 at mid levels, and 3 and 4 at high levels.

1 Complete the text

Choose the correct words to fill the gap.
Select the correct answer from the three options.

2 Put the sentences in the correct order

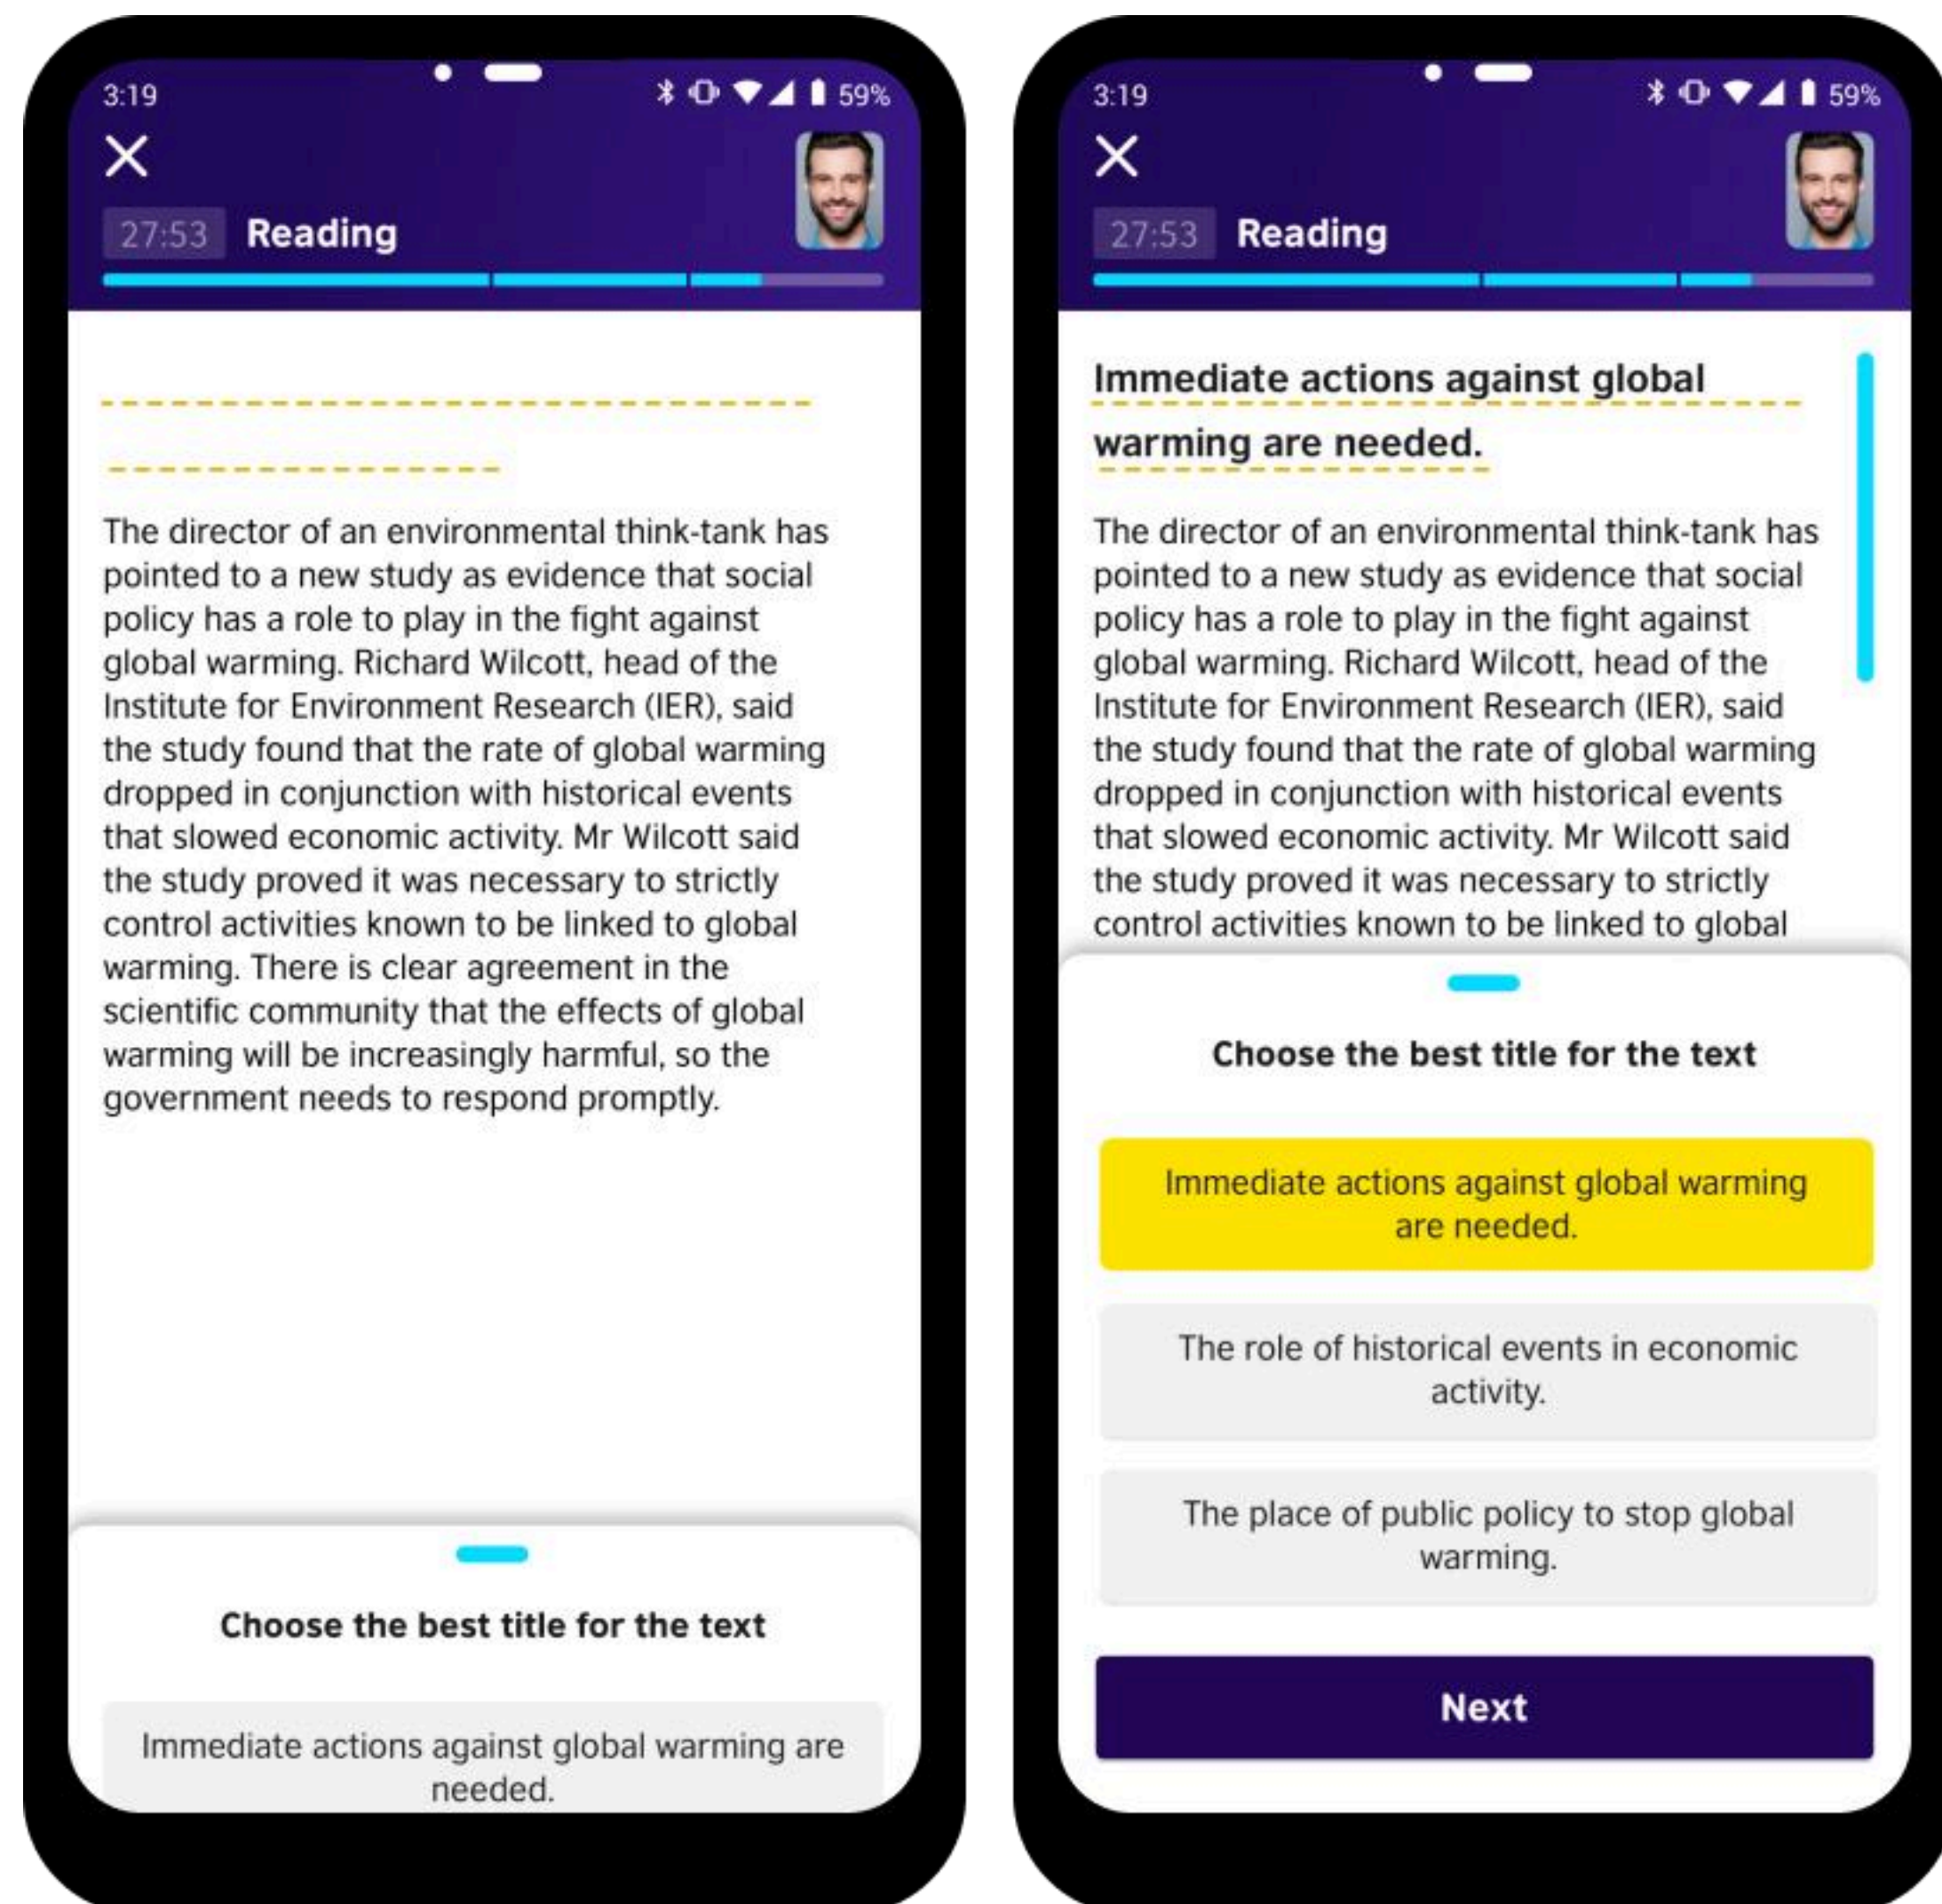

Drag the three pieces of text into the correct order. The top piece is locked in the correct place.

Part 2 Reading questions

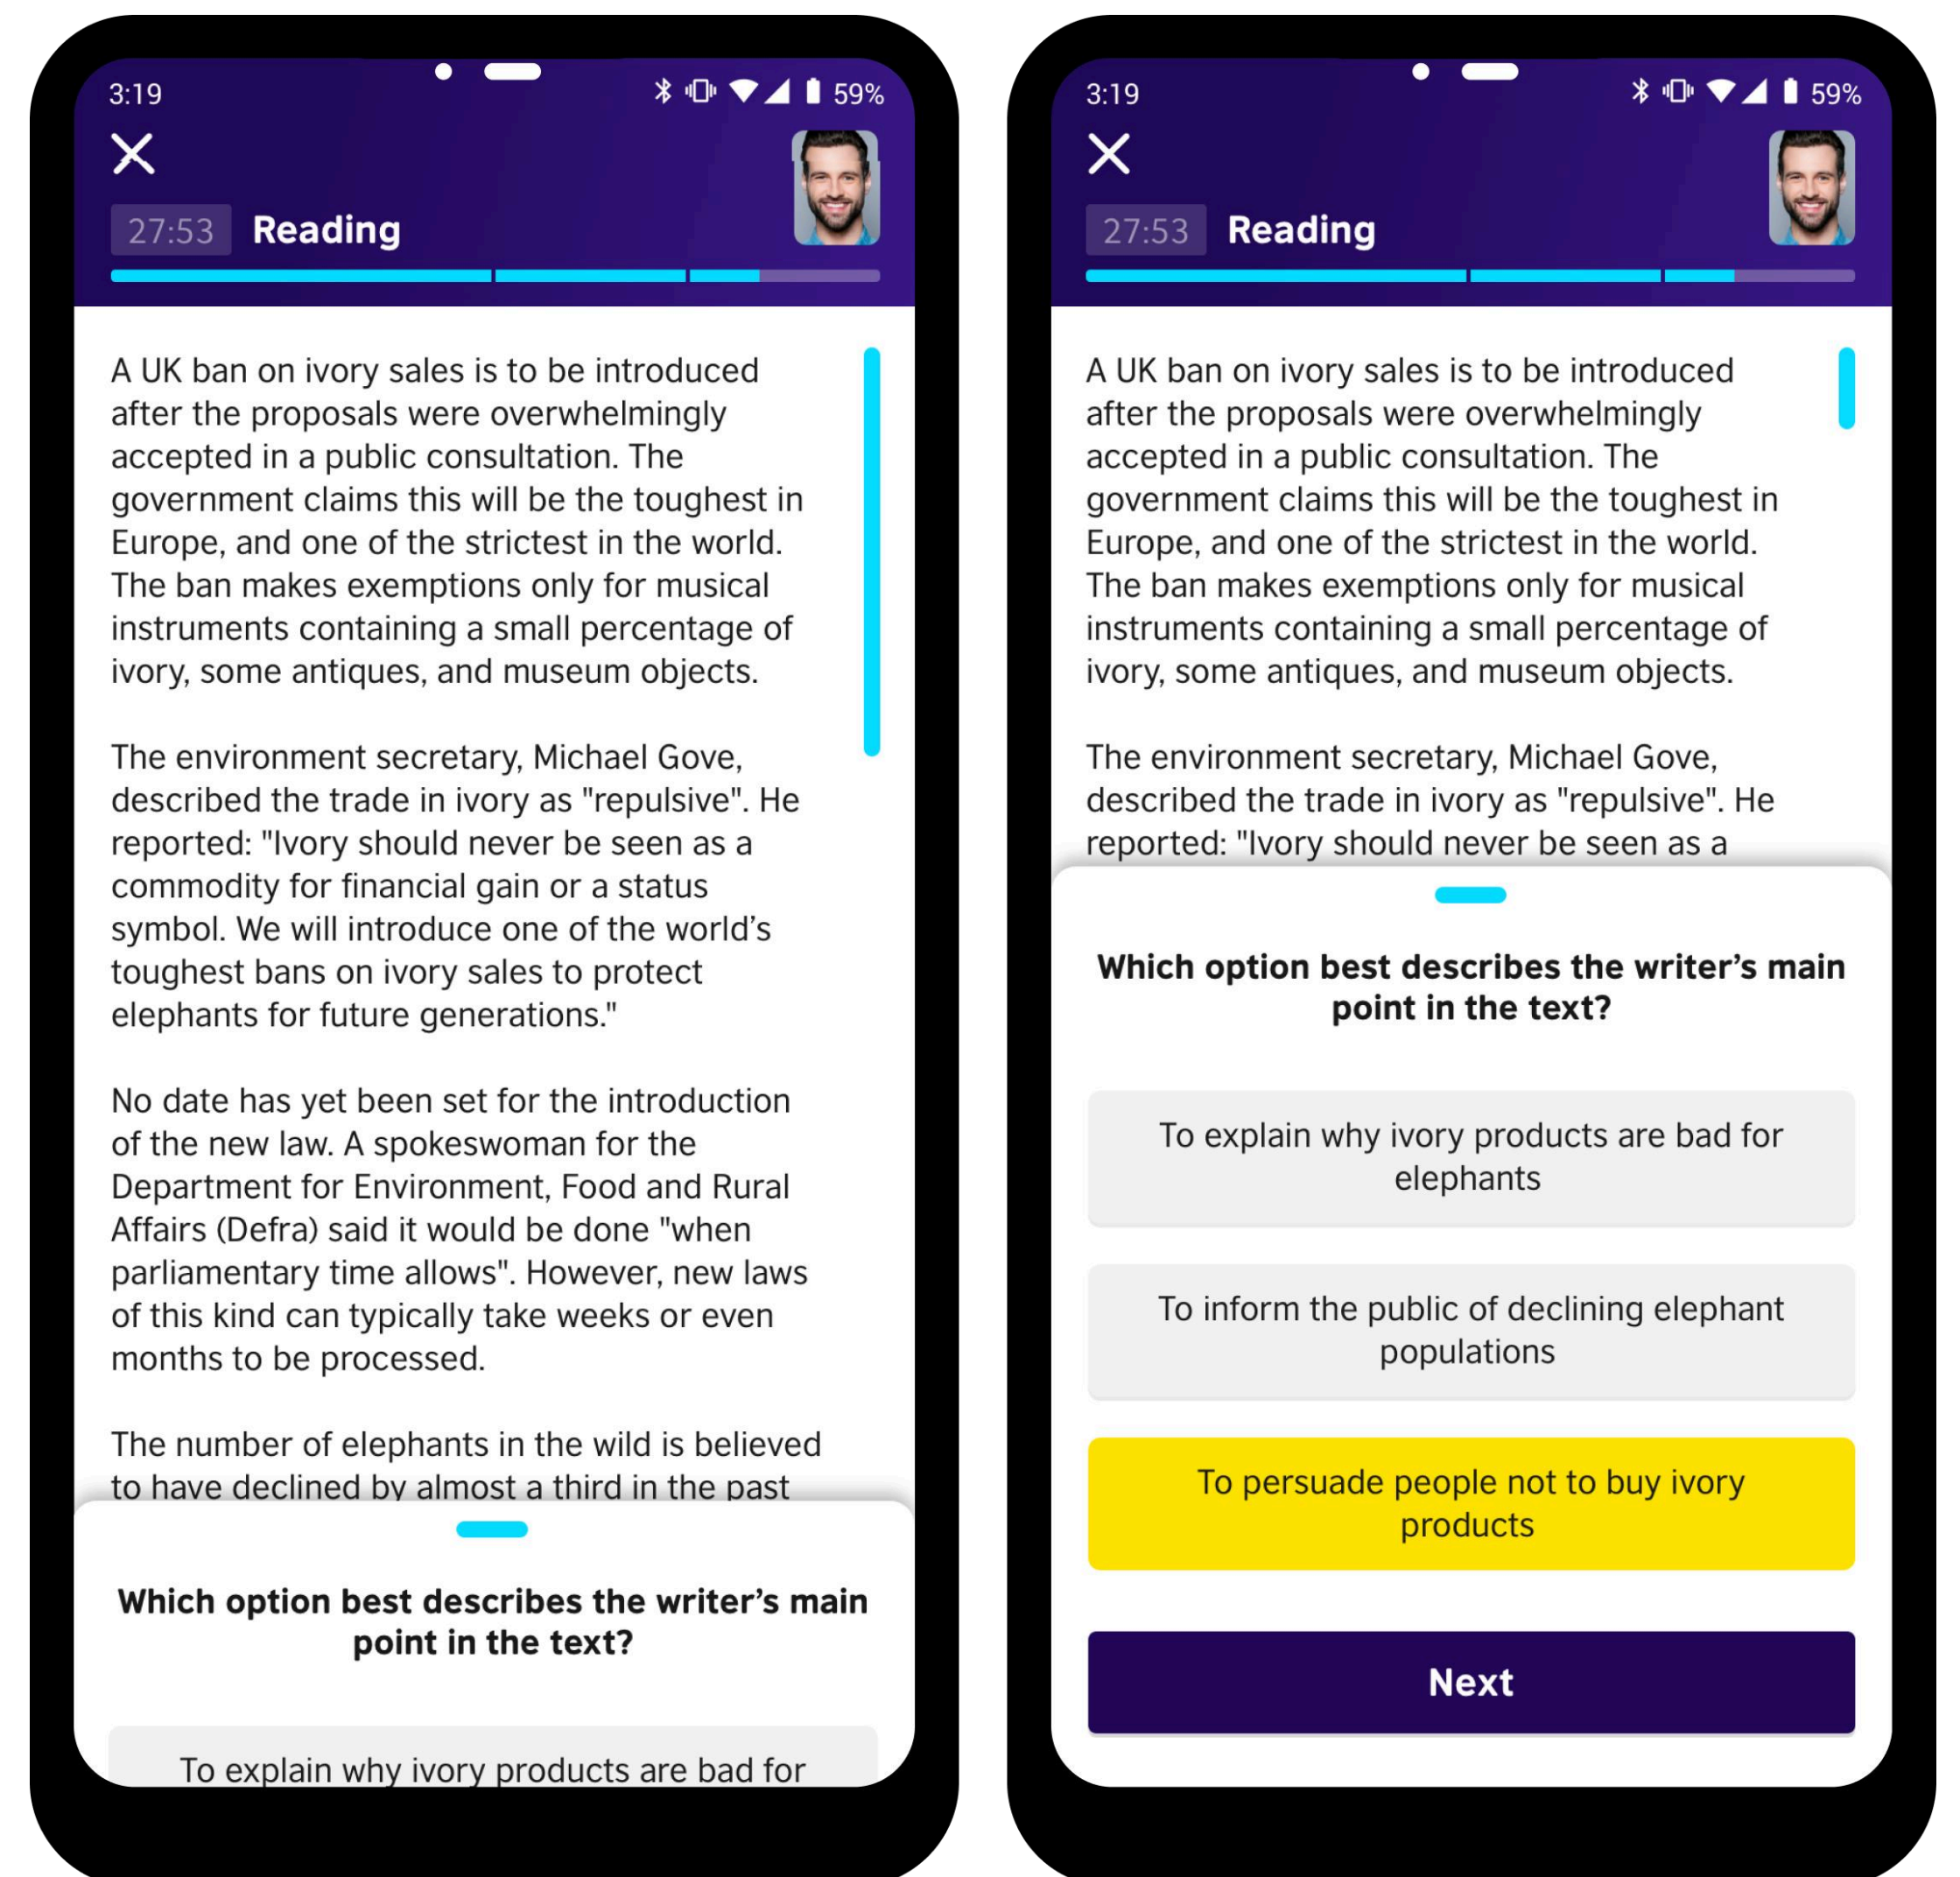

3 Choose the best heading

Read the text and choose the best heading for the text from the three options.

4 Answer three questions

Read the long text, then read the question and select the correct answer from the three options. You will be asked two more questions about the text.

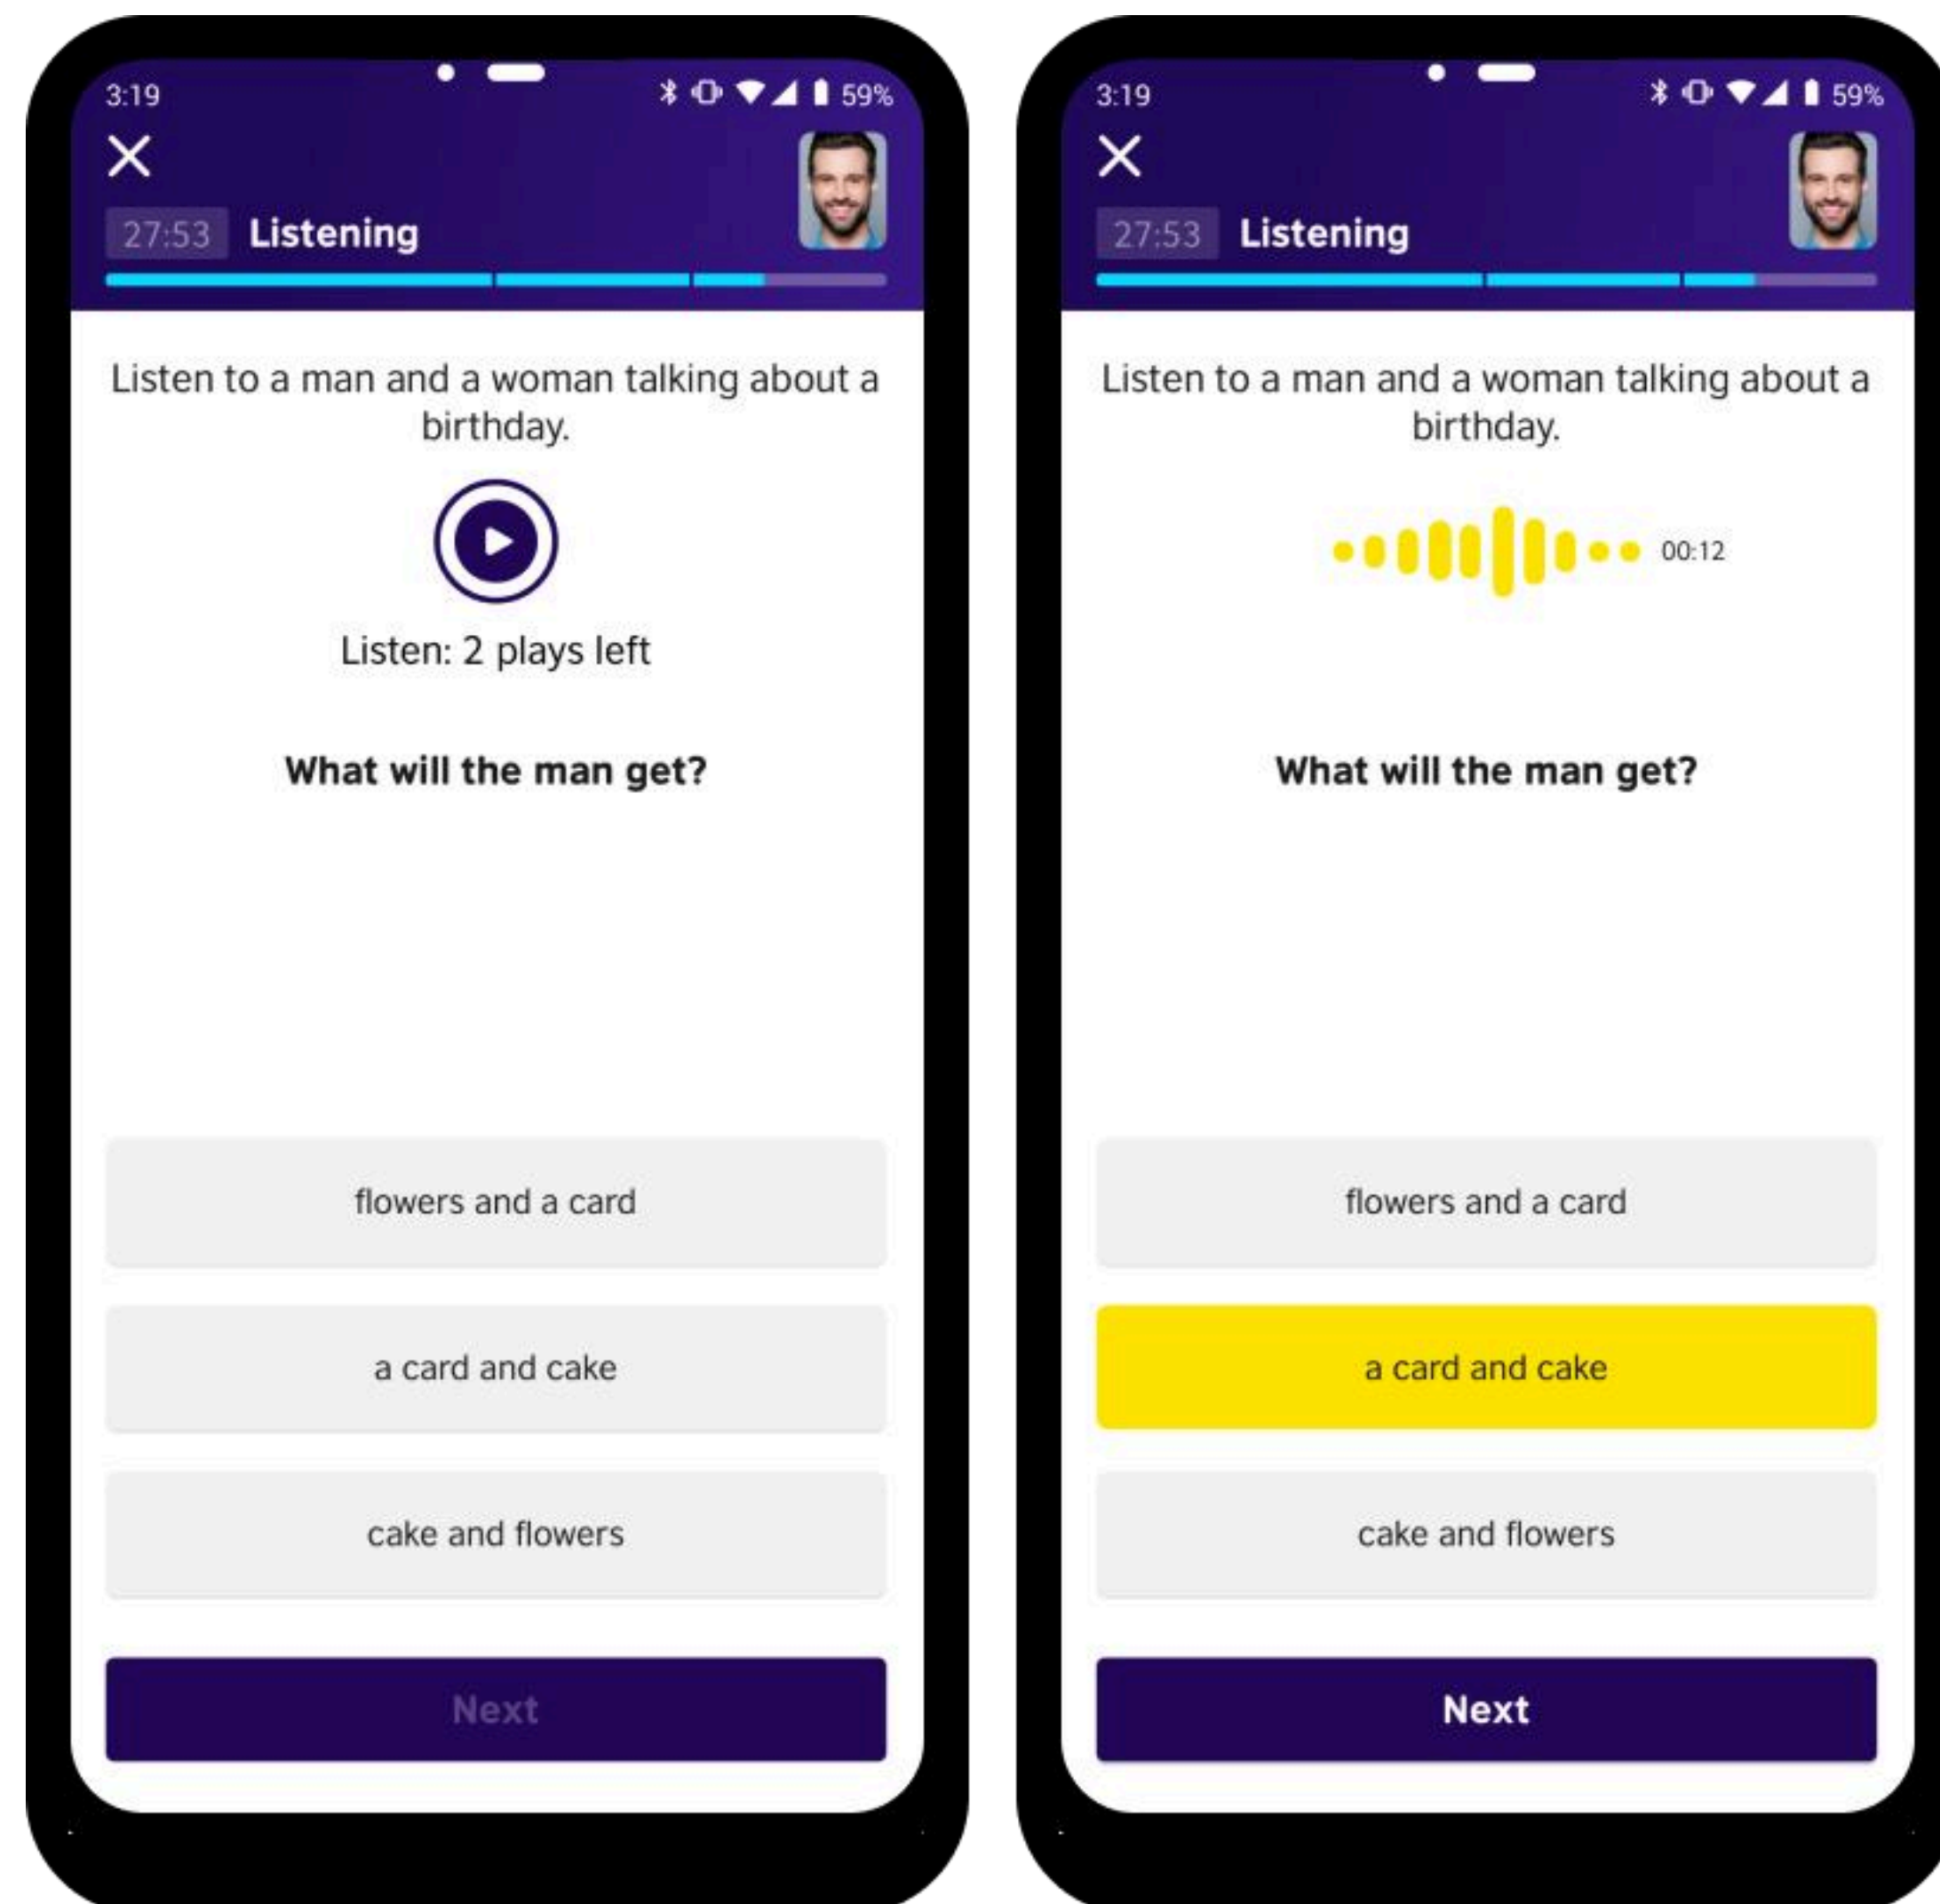

Part 3 Listening questions

In the Listening part of the test, you will see only one question type.

1 Listen and answer

Listen to the audio – you can listen twice. Read the question and select the correct answer from the three options.

Your EnglishScore explained

How is the test scored?

The test is divided into three parts to assess different skills and knowledge:

Your answers in the Grammar and Vocabulary section will decide the questions you see later. The more questions you get right, the harder the test becomes and the higher your final score.

Results are immediately available, so you can quickly understand your level and certify your score.

Understanding your EnglishScore

You can score up to 599 points on the Core Skills test. Each hundred-point band on the EnglishScore scale correlates to the international standard Common European Framework of Reference for Languages (CEFR).

CEFR is used to describe language proficiency levels. There are six main levels, from A1 to C2, ranging from beginner to advanced. EnglishScore assesses from A2 to C1.

The EnglishScore point-based scale helps you to understand your proficiency within a CEFR level for each skill and language system (grammar, vocabulary, reading and listening). You will also receive an overall score.

CEFR	EnglishScore	TOEIC	TOEFL ITP	IELTS
C1	599	990	677	8
B2	500	945	627	7
B1	400	785	543	6
A2	300	550	460	5
A1	200	225	337	4
Below A1	100	120
